

## **NOTICE OF PROPOSED CORRECTIVE ACTION PLAN**

**DATE:** July 27, 2006

**SITE:** ARCO #1958  
1216 Calimesa Blvd.  
Calimesa CA 92320  
LOP Site #89624

In accordance with Title 23, Section 2728 of the California Code of Regulations, this public notification is being issued to advise interested parties that soil vapor extraction was proposed as a corrective action to remediate the gasoline originating from the underground storage tanks at the above site. No adverse environmental effects are anticipated by this remediation treatment.

There is no indication at this time that public drinking water wells have been impacted.

The plan for corrective action was implemented on October 13, 2005. The date of completion is not specified at this time since completion will be dependent on verification analyses showing levels within regulatory compliance.

The Riverside County Department of Environmental Health Local Oversight Program is overseeing the investigation and remedial action at this site. For further information, contact Linda D. Shurlow at (760) 863-8976 or Sharon Boltinghouse at (951) 358-5055.
