

NOTICE OF PROPOSED CORRECTIVE ACTION PLAN

DATE: September 14, 2010

SITE: Circle K #1775
24051 John F. Kennedy Drive
Moreno Valley CA
LOP SITE #:200420759

In accordance with Title 23, Section 2728 of the California Code of Regulations, this public notification is being issued to advise interested parties that mobile SVE, on-site oxygen injection and off-site chemical injection events is being proposed as a corrective action to remediate the gasoline originating from the underground storage tanks at the above site. No adverse environmental effects are anticipated by this remediation treatment.

There is no indication at this time that public drinking water supplies have been impacted.

It is anticipated that the plan for corrective action will be implemented by February 1, 2011. The date of completion is not specified at this time since completion will be dependent on verification analyses showing levels within regulatory compliance.

The Riverside County Department of Environmental Health Local Oversight Program is overseeing the investigation and remedial action at this site. For further information, contact Linda D. Shurlow at (760) 863-8976 or Sharon Boltinghouse at (951) 358-5055.
