Dear Blue Ribbon Task Force:

All opinions should respectfully considered

It is the charge and the duty of the Blue Ribbon Task Force to consider all the facts and render findings and recommendations based on those facts

I understand the difficulty in this process and the how it feels when someone challenges your work or your evaluation of others work

When the dust settles the community expects factful based recommendations that can relied upon by every homeowner and public agency affected

Whatever it is, it is!

Thank you all who are serving in any capacity in this important effort

With respect to all,

Marion Ashley
