

NOTICE OF PROPOSED CORRECTIVE ACTION PLAN

DATE: July 31, 2006

SITE: Texaco Midway
2469 S. San Jacinto Street
San Jacinto CA
LOP SITE #88718

In accordance with Title 23, Section 2728 of the California Code of Regulations, this public notification is being issued to advise interested parties that soil vapor extraction is being proposed as a corrective action to remediate the gasoline originating from the underground storage tanks at the above site. No adverse environmental effects are anticipated by this remediation treatment.

There is no indication at this time that public drinking water wells have been impacted.

It is anticipated that the plan for corrective action will be implemented by December 2006. The date of completion is not specified at this time since completion will be dependent on verification analyses showing levels within regulatory compliance.

The Riverside County Department of Environmental Health Local Oversight Program is overseeing the investigation and remedial action at this site. For further information, contact Linda D. Shurlow at (760) 863-8976 or Sharon Boltinghouse at (951) 358-5055.
