

NOTICE OF PROPOSED CORRECTIVE ACTION PLAN

DATE: May 25, 2010

SITE: Ramon Chevron
68010 Ramon Rd.
Cathedral City CA 92234
LOP SITE #:98004

In accordance with Title 23, Section 2728 of the California Code of Regulations, this public notification is being issued to advise interested parties that soil vapor extraction was proposed as a corrective action to remediate the gasoline originating from the underground storage tanks at the above site. No adverse environmental effects are anticipated by this remediation treatment.

There is no indication at this time that public drinking water supplies have been impacted.

The plan for corrective action was implemented April 10, 2009. The date of completion is not specified at this time since completion will be dependent on verification analyses showing levels within regulatory compliance.

The Riverside County Department of Environmental Health Local Oversight Program is overseeing the investigation and remedial action at this site. For further information, contact Linda D. Shurlow at (760) 393-3390 or Sharon Boltinghouse at (951) 955-8982.
