

Hand Wash Rap

Pause, And stay
cautious

Pause, You gotta
watch it

Pause, And stay
cautious

If washing your hands isn't part of the plan
Germs will stick to your hands, Like peanut butter and jam
Take a minute and think, It's just a simple thing
Sanitizer and soap, Warm water from the sink
Not a stroke of brilliance, But will prevent illness, Infecting millions
Grandparents to children, War veterans as well as civilians
Heroes and their villains, Anybody, Even dentists doing fillings
Know this as a daily dealing, Whether its cards or cash, Your fingers need a bath
Money is good, But bacteria is bad, It's really simple
Just do the math and add, Even athletes don't want to cough at track meets
Wash your hands, And you'll forget what bad means
Use the soap by handfuls, Lead by example
Don't be a defenseless damsel

Pause, And stay
cautious

Pause, You gotta
watch it

Pause, And stay
cautious
